HydroPanel®II Shower System

with HydroGuard® T/P Series e700

Specifications

Surface mount shower system shall be of brushed 18 gauge 304 stainless steel. Valve shall meet the performance requirements of ASSE 1016, Type T/P compensating for 50% fluctuation in supply line pressure and 25°F (14°C) increase in hot water supply temperature. Valve shall be capable of supplying mixed water temperature within 5°F (2-8°C) of hot water supply temperature. Valve shall contain a powerful, paraffin-based thermal actuator.

Water tempering valve shall not be subject to failure due to the lime buildup or dirt particles. Construction shall be conducive to long lasting, trouble-free life, and shall not have close fitting, sliding parts, which through wear or binding, may impair operation. Valve shall feature a brass to brass limit stop.

Surface mount shower system shall be Powers' 450-7000 series. Any alternates must have written approval prior to bidding.

450-7100.

450-7054.

Ordering Information
