

# FLOW-PUR®

WATER FILTRATION SYSTEMS FOR THE MARINE  
& RECREATIONAL VEHICLE INDUSTRIES

## POU14MBA- Microbiological Water Purifier

Advanced Microbiological Technology

Once again Flow-Pur revolutionizes the RV industry through patented, state of the art technology. The micron water treatment system provides multi-stage filtration that is not available in any other filtration product.

Our single step filtration system is NSF tested and certified and is the only system that California certified as a purifier to protect against disease causing microorganisms

POU14MBA

### Multi Stage Filtration

1. One micron pre-wrap for sediment reduction including dirt, sand, silt and suspended particles.
2. Highly efficient carbon block for chlorine, taste and odor.
3. Microbiological barrier for bacteria, virus and cyst.

### Certified for:

### % Reduction

Bacteria	99.9999%
Virus (enteric)	99.99%
Cysts	99.95%
Toxoplasma	99.95%
Giardia	99.95%
Entamoeba	99.95%
Cryptosporidium	99.95%

*Now you can rely on pure, safe, great tasting water wherever your travels takes you, even to Mexico!*
