

PURE WATER

Pure Water

Pure Water by Watts

Introducing Pure Water by Watts—the broadest line of products for Residential and Light Commercial water quality available in wholesale distribution. This full line of solutions for filtration, softening, and conditioning features the innovative new technology your customers want. Backed with the proven Watts reputation and our solid fulfillment record, our line offers top value without sacrificing a drop of quality. Our array of filter change kits and replacement cartridges—including a broad selection of filters for competitive products—make this product line hassle-free to sell, while simple, identifiable labeling and competitive pricing encourage repeat business.
